In the UK, wealth management services are offered through our strategic long-term partnership with Rathbones. The Group was established in 1974 and currently has approximately 7,500+ employees.

Investec plc (housing the non-Southern African operations) and Investec Limited (housing the Southern African operations) form a single economic enterprise where shareholders have common economic and voting interests. On 21 September 2023, Investec Group completed the all-share combination of Investec Wealth and Investment UK (IW&I UK) and Rathbones Group plc creating the UK's leading discretionary wealth manager with £107.6bn funds under management and administration (FUMA) as at 31 March 2024.

This marks the beginning of a long-term strategic partnership between Investec and Rathbones, with a co-ordinated banking and wealth management offering for clients.

IBP has a liquidity management philosophy that has been in place for many years. The bank continues to focus on maintaining a high level of readily available high-quality liquid assets, targeting a minimum cash to customer deposit ratio of 25%. As at 31 March 2024, the bank had £9.7 billion of cash and near cash to support its activities, representing approximately 46.3% of customer deposits.

Furthermore, the bank maintains an appropriate mix of term funding, placing a low reliance on interbank wholesale funding to fund core lending asset growth. IBP targets a diversified funding base, avoiding undue concentrations by investor types, maturity and market source, instrument and currency. Customer deposits amounted to £20.9 billion as at 31 March 2024 (31 March 2023: £19.3 billion).

Deposit guarantees

In terms of the Financial Services Compensation Scheme, the UK government guarantees a maximum deposit of £85 000 per individual per institution. Granularity of deposits is a key area of focus and Investec Bank plc has a substantial portion of eligible deposits that are covered by FSCS protection.

Capital adequacy

19.8%

Total capital ratio

IBP holds capital in excess of regulatory requirements and intends to perpetuate this philosophy and ensure that it remains well capitalised. The bank has never required shareholder or government support. As at 31 March 2024, the total capital ratio of IBP was 19.8% and the common equity tier 1 ratio was 13.3%.

The bank's anticipated 'fully loaded' Common Equity Tier 1 (CET1) ratio and leverage ratio are 13.3% and 10.7% respectively (where 'fully loaded' assumes full adoption of IFRS 9). These disclosures incorporate the deduction of foreseeable charges and dividends. Excluding this deduction, the CET1 ratio would be 34bps (31 March 2023: 21bps) higher.

We currently apply the Standardised Approach to calculate capital requirements. We continue our efforts to build Internal Ratings Based (IRB) approach models.
