Section 2

Introduction to Warrants

What is a Warrant?

Warrants are contractual obligations traded on the JSE. Their performance is linked to the value of a given underlying index or share. Equity Warrants are issued over an Underlying Share and give the Holder the right to buy (in the case of Call Warrants) or sell (in the case of Put Warrants) those Underlying Shares. All Warrants offered under this Programme are Call or Put Warrants, and the term "Warrant" should be read accordingly.

A Holder of American Style Warrants is entitled, but not obliged, by giving an Exercise Notice and paying the Exercise Price and Exercise Expenses before the Expiration Date, to receive in the case of Equity Warrants, an Underlying Parcel (or the Cash Settlement Amount as set out in the Conditions), on the Settlement Date.

A Holder of European Style Warrants is entitled, but not obliged, by giving an Exercise Notice and paying the Exercise Price and Exercise Expenses on or before the Expiration Date, to receive, in the case of Equity Warrants, the Underlying Parcel for each Specified Number (or the Cash Settlement amount as set out in the Conditions); or in the case of Index Warrants the Cash Settlement Amount (if any), on the Settlement Date.

In the case of Index Warrants, exercise is automatic on the Expiration Date and a Holder of an Index Warrant need not give an Exercise Notice in order to receive the Cash Settlement Amount (if any).

Underlying Parcel

The Underlying Parcel is initially one unit of the relevant Underlying Share. Subject to JSE approval, it may be adjusted in certain circumstances, such as a bonus or rights issue, a cash return of capital, a reconstruction of capital, or a call or put on shares.

What is a Put Warrant?

Put Warrants are financial instruments entitling the Holder to receive a Cash Settlement Amount equal to the amount (if any) by which the price of the relevant Underlying Shares or Index is less than the Exercise Price on the Valuation Date, or in the case of Equity Warrants, to sell the Underlying Parcel to the Issuer at the Settlement Price.

What is a Call Warrant?

Call Warrants are financial instruments entitling the Holder to receive a Cash Settlement Amount equal to the amount (if any) by which the price of the relevant Underlying Shares or Index is greater than the Exercise Price on the Valuation Date, or in the case of Equity Warrants, to buy the Underlying Parcel from the Issuer at the Settlement Price.

What are Index Warrants?

Index Call Warrants are financial instruments that give the Holder of the Specified Number of Warrants of a Series the right to receive a Cash Settlement Amount that reflects the value by which the Settlement Price in respect of that Index exceeds the Exercise Price in respect of that Index. Index Put Warrants are financial instruments that give the Holder of the Specified Number of Warrants of a Series the right to receive a Cash Settlement Amount that reflects the value by which the Settlement Price in respect of that Index is lower than the Exercise Price in respect of that Index.

What are Barrier Warrants?

Barrier Warrants are securities that give the Holder of the Specified Number of Warrants of that Series the right to buy or sell one Underlying Parcel from the Issuer.

The Barrier Warrants can be exercised only during the Exercise Period, provided that the Barrier Level has not been breached.

If, on any Business Day up to and including the Expiration Date, the closing price of the Underlying Parcel as quoted on the JSE Limited is equal to or less than the Stop-Loss Level in the case of a Call Warrant and equal to or more than Stop-Loss Level in the case of a Put Warrant, the Barrier Warrant will automatically lapse.

The Terms of the Barrier Warrants are set out in Section 4 of this Programme.

What are Basket Warrants?

Basket Warrants are warrants comprising a Basket of shares from a group of companies as the underlying securities. Basket warrants provide investors with the opportunity to benefit from the performance of a selected group of companies or a particular sector.

What are Enhanced Dividend Securities (“EDS”)?

EDS are Warrants that confer the following rights on the Holder:

1. The right to buy one Underlying Parcel from the Issuer; and
2. The right to the Dividends to which the holder of an Underlying Parcel would normally be entitled.

The Warrant Holder benefits by paying a fraction of the share price and is entitled to the same dividends that would normally accrue to holders of the underlying share.

What are Hot Enhanced Dividend Securities (“HOT EDS”)?

HOT EDS are Warrants that confer the following rights on the Holder:

1. The right to buy one Underlying Parcel from the Issuer; and
2. The right to the Dividends to which the holder of an Underlying Parcel would normally be entitled.

The Warrant Holder benefits by paying a fraction of the share price and is entitled to the same dividends that would normally accrue to holders of the underlying share.

The strike price and barrier will be higher on the HOT EDS than the strike price and barrier of the EDS.

What are Variable Strike Warrants?

Variable Strike Warrants are essentially vanilla call warrants with the following distinguishing features;

- the maturity date is extended longer than the average warrant
- the Strike Price is a floating amount rather than a fixed amount
- the Strike Price is initially set at 50% of spot on the issue rate but then is recalculated each day
- the floating strike is recalculated each day using a formula that is set out in the Pricing Supplement. Under the formula the Strike Price increases by an interest rate and reduces by the gross amount of the distributions paid by the underlying security
- If the distributions are greater than the interest charges, the Warrant Strike will reduce over time. If they are smaller then the Warrant Strike will increase
- If the Strike Price falls to R0.01 the Warrant will automatically exercise and the Holder will acquire the underlying share
- the Holder will not be eligible to receive any distributions or dividends paid by the underlying company

What are Reverse Securities (“REVS”)?

Reverse Securities (REVS) are tradable instruments which provide moderately geared exposure to declining markets.

- They give investors the right to sell the underlying asset at the exercise price on the maturity date.
- REVS are “deep in the money” put options, meaning that the price of the underlying asset is much lower than the exercise price which is set at issue date. The price of REVS will therefore directly track the inverse performance of the underlying security on a one for one basis.
- As “deep in the money” put options have more intrinsic value than conventional “at the money” options, they are only moderately geared and therefore less sensitive to volatility adjustments and time decay.

Characteristics of Warrants

Warrants are leveraged investment instruments. Warrants can provide exposure to an Underlying Share or Index for a fraction of the cash required to hold the relevant Shares or Shares representing an Index.

The value of call Warrants tends to rise if the value of the Underlying Shares or Index increases, and tends to fall if the value of the Underlying Shares or Index decreases. Such increase and decrease in the value of the Underlying Shares or Index are likely to be magnified, in percentage terms, in the Warrant price.

Adjustments to the Exercise Price and Barrier Level

The Exercise Price may be adjusted in certain circumstances. The Barrier Level may also be adjusted in certain circumstances, as set out in the Terms and Conditions in Section 4. The adjustments are designed with the intention that neither the Holder nor Issuer is disadvantaged in such circumstances.

Adjustments to Indices

The constituent shares and the weightings within a JSE Index may be adjusted from time to time by the JSE. Generally, where this is done in accordance with the current rules applying to an Index, no changes will be made to the Conditions of the Warrants. In the event, however, that there are material changes made to the structure or method of calculation of an Index, an adjustment may be

made to the Conditions of the Index Warrants, subject to the approval of the JSE, so as to reflect, as far as possible, the structure and method of calculation of the Index at the date of this Programme. The adjustments will be designed with the intention that neither the Holder nor Issuer is disadvantaged in such circumstances. Adjustments are discussed further in Section 4.

Dividends and Voting Rights in respect of Underlying Shares

Holders of Equity Warrants (subject to the Calculation Agent's discretion) are not entitled to dividends or rights (including voting rights) in respect of the Underlying Parcel, except that following the exercise of Warrants which are physically settled, all dividends on the relevant Shares to be delivered shall be payable to the party that would receive such dividend according to market practice for a sale of the Shares executed on the Exercise Date and to be delivered in the same manner as such Underlying Parcel.

Taxation

Purchasing, holding, selling and exercising Warrants may have income tax implications for investors. The tax consequences will depend on the particular circumstances of each Holder. Potential investors should seek their own independent advice relating to their own circumstances prior to making any investment decision.

Delivery of Conditions

The Terms and Conditions of the Warrants will be delivered to the JSE Limited on or prior to the date of listing of the Warrants.

Delivery of Underlying Parcel

In the case of Equity Call Warrants, the Warrants may, at the Issuer's discretion, entitle the Holder thereof to receive Delivery of the Underlying Parcel against payment of a specified sum (subject to the Cash Settlement provisions), all as set out in the Conditions. In the case of Equity Put Warrants, the Warrants may, at the Issuer's discretion, entitle the Holder thereof to Deliver to the Issuer the Underlying Parcel, against payment by the Issuer of a specified sum (subject to the Cash Settlement provisions), all as set out in the Conditions.

This Document does not constitute, and may not be used for the purposes of, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation and no action is being taken to permit an offering of the Warrants or the distribution of this Document in any jurisdiction where any such action is required.

This Document is to be read and construed with all documents which are deemed to be incorporated herein by reference. This Programme constitutes a placing document under the terms of the Listing Requirements made by the JSE for the purpose of giving information with regard to the Issuer and in connection with the issue of Warrants.

Rights of Holders

The Warrants create rights, but until Exercise do not impose any obligations on the Holder. In the absence of exercise, any obligation on the Issuer to pay any amount or deliver any Shares to any Holder is subject to limitations. The Warrants shall be exercisable in the manner set out herein.

Affected Transactions and Take-overs

Any person who holds Warrants and who is, or may become a substantial holder of Shares should consider the provisions of Chapter 5 of the Companies Act No 71 of 2008 and the Takeover Regulations.

Holder of the Warrants should note that if an offer is made to acquire all or to acquire substantially all of the Shares or a take-over offer is made otherwise with respect to the Shares, a Holder may be unable to participate in such offer.

The Issuer gives no undertaking, assurance or guarantee with respect thereto. Should compulsory acquisition or anything similar thereto take place, the Warrants shall lapse with effect from the date thereof.

Placement Size

There is no obligation upon the Issuer to sell all or any particular number of the Warrants.

Role of JSE

The fact that the JSE has approved listing of the Warrants is not to be taken in any way as an indication of the merits of the Issuer or of the Warrants. The JSE has not verified the accuracy or truth of the contents of this Programme and takes no responsibility for the contents of this Programme.

In listing the Warrants, the JSE has not authorised or caused the making of offers or invitations with respect to the Warrants. To the extent permitted by law, the JSE shall be under no liability for any claim of whatever kind, including a claim for any financial or consequential loss or damage suffered by any Holder of Warrants or any other person, where that claim arises wholly or substantially out of

-

- reliance on any information contained in this Programme; or

- any error in, or omission from, this Programme.

Claims against the JSE Guarantee Fund, established in terms of Section 30 of the Stock Exchanges Control Act 1985, as amended, may only be made in respect of trading in Warrants on the JSE, and can in no way relate to the issue of Warrants by the Issuer.

Registration and Transfer

Only persons registered in the Register (as defined) shall be recognised as Holders of the Warrants.

Transfers of Warrants will only be recognised when the proposed transferee of such Warrants is entered into the Register by the Sponsor (in the case of Certificated Warrants), or by the relevant Issuer's CSDP or Warrant holder's CSDP (in the case of Uncertificated Warrants).

Limitations on Use of Programme

Neither this Programme nor any other information supplied in connection with the issue -

- is intended to provide the basis of any credit or other evaluation; or
- should be considered as a recommendation by the Issuer that any recipient of this Programme or any other information supplied in connection with the issue should purchase any Warrants.

Each investor contemplating purchasing any Warrants should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer. Neither this Programme nor any other information supplied in connection with the Issue of Warrants constitutes an offer or an invitation by or on behalf of the Issuer or any person to subscribe for or to purchase any Warrants.

The delivery of this Programme does not at any time imply that the information contained herein is correct at any time subsequent to the date hereof or that any other information supplied in connection with the Issue of Warrants is correct as of any time subsequent to the date indicated in the document containing such information. Investors should review, *inter alia*, the most recently published annual report and accounts of the Issuer when deciding whether or not to purchase any Warrants.

The distribution of this Programme and the offering of Warrants in certain jurisdictions may be restricted by law.

Persons into whose possession this Programme comes are required by the Issuer to inform them about and to observe any such restrictions.

In this Programme and in any Supplement thereto, references to "R" or "Rand" are to the currency of the Republic of South Africa.

Section 3 Risk Factors Relating to Warrants and Equity Structured Products

An investment in the Warrants or Equity Structured Products involves a number of risks, some of which are referred to below. Potential investors should ensure that they understand fully all of the risks prior to making any investment decision. Potential investors should seek independent financial advice prior to investing in Warrants or Equity Structured Products.

Warrants and Equity Structured Products involve a high degree of risk. Prospective purchasers of Warrants or Equity Structured Products should consider the following risk factors before making an investment decision. Purchasers should reach an investment decision only after careful consideration, with their advisers, of the suitability of Warrants or Equity Structured Products in light of their particular financial circumstances.

Prospective purchasers of Warrants should recognise that their Warrants may expire worthless and should be prepared to sustain a loss of the total purchase price. Thus, in order to recover and realise a return upon his investment, a purchaser of a Warrant must generally be correct about the direction, timing and magnitude of any anticipated change in the value of the Share or level of the index underlying the Warrant.

Certain Equity Structured Products involve a high degree of risk, including the risk of their expiring worthless. Potential investors should be prepared to sustain a total loss of their investment in the case of certain Equity Structured Products.

The value of a Warrant will be subject to continuous change in response to market and economic forces. The factors which may generally affect the pricing of a Warrant include, but are not limited to, such variables as the current value of the Share underlying the Warrant and the relationship between the value and the Exercise Price, the current values of related interests (e.g. exchange-traded futures related to the Underlying Shares), the style of the Warrant (e.g. American call), the individual estimates by market participants of the future volatility of the Share, the amount of time remaining until expiration of the Warrant, current interest rates, the effect of supply and demand (including the depth of liquidity) in the market for the Warrants as well as the markets for the Underlying Shares and for related interests, and other factors generally affecting the prices or volatility of Underlying Shares, related interests or securities generally.

Issuer's Credit Rating

The Warrants and Equity Structured Products represent general, unsecured, unsubordinated contractual obligations of the Issuer which rank *pari passu* in all respects with each other and with other general unsecured and unsubordinated obligations of the Issuer.

Purchasers of the Warrants should therefore look solely to the Issuer for performance of its obligations to deliver the Underlying Parcel (or to pay the Cash Settlement Amount) and potential Investors in Equity Structured Products should therefore look solely to the Issuer for the performance of the obligations of the Issuer set out in Technical Conditions 3.2, 3.3 and 4 of the Technical Supplement. The value of the Warrants or Equity Structured Products may be affected by investors' appraisal of the Issuer's creditworthiness. Such perceptions may be influenced by the ratings accorded to the Issuer's outstanding securities by rating services, such as Moody's Investors Service, Inc ("Moody's") and Fitch Southern Africa (Pty) Ltd ("Fitch"). A reduction in the rating accorded to outstanding debt securities of the Issuer by one of these rating agencies could result in a reduction in the value of the Warrants or Equity Structured Products. On the date hereof the Issuer is rated Aa2 for National Long Term Rating by Moody's and A+ for National Long Term Rating by Fitch.

Potential Conflicts of Interest

The Issuer and its affiliates may also engage in trading activities (including hedging activities) related to the Shares and other instruments or derivative products based on or related to the Shares for their proprietary accounts or for other accounts under their management. The Issuer and its affiliates may also issue other derivative instruments in respect of the Shares. For example, issuance of other securities indexed to the Shares (i.e. the introduction of competing products into the marketplace) could adversely affect the value of the Warrants or Equity Structured Products.

The Issuer may have interests which may be adverse to those of the Holders of the Warrants or Equity Structured Products. The Issuer or its affiliates may also act as underwriter in connection with the future offerings of Shares or other securities related to the relevant Warrants or Equity Structured Products or may act as financial adviser to any Company or in a banking capacity for any Company. Such activities could present certain conflicts of interest, influence the prices of such Shares or other securities and could adversely affect the value of the Warrants or Equity Structured Products.

Maximum Exercise of Warrants

The Issuer shall have the ability to limit the number of Warrants exercisable on any date (other than the Expiration Date) to the Maximum Number and, in conjunction with such limitation to limit the number of Warrants exercisable by any person or group of persons (whether or not acting in concert) on such date. In the event that the total number of Warrants being exercised on any date (other than the Expiration Date) exceeds such Maximum Number and the Issuer has elected to limit the number of Warrants exercisable on such date, Holders may not be able to exercise on such date all Warrants that they desire to exercise. In any such case, the number of Warrants to be exercised on such date shall be reduced until the total number of Warrants exercised on such date no longer exceeds such maximum, such Warrants being selected by the Issuer on the basis of the time at which notices to exercise the Warrants are received by the Issuer with the earlier of such notices taking priority over those which are received later in time.

Any Warrants tendered for exercise but not exercised on such date shall be automatically exercised on the next date on which Warrants may be exercised, subject to the same daily maximum limitation and delayed exercise provisions.

Minimum Exercise of Warrants

Except on the Expiration Date, Holders must tender at least a specified Minimum Number of Warrants at any one time, in order to exercise their Warrants.

Thus, Holders with fewer than the Minimum Number of Warrants will either have to sell their Warrants or purchase additional Warrants, incurring transaction costs in each case, in order to realise a return on their investment, and may incur the risk that the trading price of the Warrant is different from the property to be delivered upon exercise.

In addition, on any date including the Expiration Date, Warrants must be exercised in multiples of the Specified Number.

Thus, Holders with fewer than the Specified Number of Warrants will either have to sell their Warrants or purchase additional Warrants, incurring transaction costs in each case, in order to realise a return on their investment, and may incur the risk that the trading price of the Warrant is different from the value of the property to be delivered upon exercise.

Upon exercise, Warrants will only entitle Holders (subject to the provisions concerning the Cash Settlement Amount) to an integral multiple of a whole integer of the number of Shares. Fractions of a Share will not be delivered. However, the Calculation Agent may make an adjustment and may pay an amount in Rands in order to compensate the relevant Holder as specified in the Terms and Conditions.

Barrier Events

The Barrier Warrants of a particular Series will lapse automatically if, on any Business Day up to and including the Expiration Date, the closing price of the Underlying Parcel as quoted on the JSE Limited is equal to or less than the Barrier Level in the case of a Call Warrant or equal to or more than the Barrier Level in the case of a Put Warrant. Holders will not be able to trade those Warrants after they have lapsed. In the event that a Warrant lapses on or after the last day to trade in respect of any dividend declared by a Company, the Holders will not be entitled to receive any dividends in respect of such lapsed Warrants, nothing to the contrary herein excepted.

Settlement Risk

The Holder shall bear the risk of any failure in any settlement system through which the Underlying Parcel or Cash Settlement Amount are to be settled or paid.

Upon the occurrence of certain events as specified herein, the Issuer may vary the settlement in respect of the Warrants and it may make payment of the Cash Settlement Amount on the Cash Settlement Date to the relevant Holders in substitution for Delivery of the Underlying Parcel.

The occurrence or existence of a Market Disruption Event in respect of the Shares shall be determined by the Calculation Agent. Such a determination may have an adverse effect on the value of the relevant Warrants.

The Calculation Agent may determine that a Settlement Disruption Event has occurred or exists where, in the opinion of the Calculation Agent, as a result of the occurrence of an event beyond the reasonable control of the Issuer, the Issuer is precluded from making Delivery of the Underlying Parcel. Such a determination may have an adverse effect on the value of the relevant Warrants.

There shall be a time difference between the time a Holder gives instructions to exercise and the time the Underlying Parcel or Cash Settlement Amount is determined (with the Valuation Date being one Business Day prior to the Actual Exercise Date). Any such difference between the time of exercise and the determination of the Underlying Parcel or the Cash Settlement Amount could be significant due, *inter alia* to any daily maximum exercise limitation or the occurrence of a Settlement Disruption Event or a Market Disruption Event. The applicable Underlying Parcel or Cash Settlement Amount could change during any such period and such movement or movements could decrease the value of the entitlement or the Cash Settlement Amount of the Warrants being exercised.

In case of Call Warrants with physical delivery and upon exercise of Call Warrants and in the case where the Issuer elects to deliver the Underlying Shares, the Warrant holder must pay the total amount of the aggregate Exercise Price relating to the Call Warrants exercised as well as all applicable Exercise Expenses before being delivered the Underlying Shares.

If an Exercise Notice is received by the Issuer on any Business Day after 12h00 Johannesburg time, it shall not be deemed to be received by the Issuer until the following Business Day. Any resultant delay may, as above, decrease the quantity of the property to be Delivered or the Cash Settlement Amount. If no such Exercise Notice is received from a Member (in respect of Controlled Warrant holders) or a CSDP (in respect of Non-Controlled Warrant holder) who shall also confirm that the Holder has funds sufficient to enable Member or CSDP to pay the Exercise Price in full on behalf of such Holder, before 12h00, Johannesburg time on the Expiration Date, the Warrants may be automatically exercised by the Issuer in accordance with the Conditions.

Illegality of Issue

If the Issuer, upon advice from its independent external legal adviser, determines that the performance of its obligations under the Warrants has become unlawful in whole or in part for any

reason, the Issuer may terminate the Warrants by giving notice of this to the Holders and paying to each Holder an amount determined by the Calculation Agent to be its fair market value.

Section 4 Terms and Conditions of the Warrants

1 General

1.1 Application to Different Series

These Conditions apply only to a Series of Warrants offered under this Programme.

1.2 Issue of Certificates

The Warrants can only be traded on the JSE in dematerialised form. The rules of the JSE and the rules of Strate do not allow for Certificated Warrants to be traded, settled or cleared on the JSE or through Strate. In the absence of a written request for a Warrant Certificate by the Holder, no Certificate shall be issued in respect of any Warrant(s). Settlement of dematerialised Warrants shall be effected electronically through the Strate system of the JSE.

2 Type, Title and Transfer

2.1 Type

The Warrants are American or European style call or put warrants, barrier or variable strike warrants over Underlying Shares or Indices which confer on a Holder the right, but not the obligation, to require delivery of the Underlying Parcel or payment of the Cash Settlement Amount in accordance with these Conditions; or European style call or put warrants over Underlying Shares or Indices which confer on the Holder the right to deliver the Underlying Parcel or receive the Cash Settlement Amount in accordance with these Conditions.

2.2 Title to Warrants

Each person who is at the relevant time shown in the Register as the Holder of a Warrant may be treated by the Issuer as the absolute owner of such Warrant for all purposes.

Save as required by law, neither the Sponsor nor the Issuer's CSDP (as the case may be) is required to take account of any trust (whether express, implied or constructive) to which any Warrant may be alleged to be subject.

2.5 Transfer of Warrants

Transfer of Warrants shall be affected through and by the Warrant holder's CSDP according to the rules of Strate and any applicable customary market practices and subject to applicable laws and regulations.

The Warrants will be quoted on the Trading System for the purpose of trading. Transfers of Warrants may not be affected after the exercise of such Warrants pursuant to Condition 5.

2.6 Form of Transfer

Each transfer of a Warrant shall be affected through a CSDP in the usual manner for the transfer of listed dematerialised securities on the JSE and in accordance with the rules of Strate.

Each transfer of Warrants shall only be affected in minimum numbers equal to the Minimum Exercise Number.

The transfer of Warrants may give rise to an obligation on the part of the transferee to pay STT and the Sponsor, Issuer's CSDP or Warrant holder's CSDP (as the case may be) may refuse to register any transfer until the Sponsor, Issuer's CSDP or Warrant holder's CSDP (as the case may be) is satisfied that the relevant STT has been paid.

2.7 Lapse of Warrants

- a) A Warrant automatically lapses and ceases to confer any rights on the Holder at the time the Issuer notifies Holders of any cancellation of the Warrants under Conditions 6, 7 and 13 or otherwise in accordance with these Conditions.
- b) If, in respect of a Barrier Warrant, the Price of the Underlying Parcel on any Business Day on or before the Expiry Date, breaches the Barrier Level, with the effective date of such lapse being the first day on which the Price breaches the Barrier Level.

3 Status of the Warrants and Debt Securities

3.1 Warrants

The Warrants represent direct, general, unsecured, unsubordinated contractual obligations of the Issuer and rank *pari passu* in all respects with each other and all other general, unsecured, unsubordinated contractual obligations of the Issuer. The Warrants constitute obligations of the Issuer and of no other person.

In particular, the Warrants shall not be secured by Underlying Shares in respect of the Warrants and the Issuer does not accept any responsibility for the maintenance of the listing (where applicable) of the Underlying Shares on the relevant stock exchange on which such Shares may be quoted, nor for the availability of information in respect of the Assets published by or on the relevant stock exchange.

3.2 Debt Securities

Debt Securities are contractual obligations traded on the JSE. Their performance may be linked to the value of a given underlying index or share or share basket. Each Holder is entitled to payment of a Cash Settlement Amount calculated in accordance with a formula set out in the relevant Pricing Supplement. Note Holders are not entitled to receipt of the underlying index, share or share basket.

In particular, the Debt Securities shall not be secured by underlying shares or indices. In respect of the Debt Securities and the Issuer does not accept any responsibility for the maintenance of the listing (where applicable) of the Underlying Shares on the relevant stock exchange on which such Shares may be quoted, nor for the availability of information in respect of the Assets published by or on the relevant stock exchange.

3.3 Debt Securities Offering Procedure

The procedures and methodology for the subscription, sale or redemption etc of Debt Securities to be listed shall be contained in the relevant Pricing Supplement.

4 Exercise of Warrants

4.1 Warrants shall, unless otherwise stated in any Supplement, be settled in cash subject to each Holder being entitled to elect instead to receive the Underlying Parcel. To make this election the Holder shall be required to deliver a valid Exercise Notice prior to 12h00 on the Last Day for Exercise. The Issuer shall retain a right of refusal which shall entitle it to refuse to accept all of the Exercise Notices in respect of any Warrant provided that its refusal is announced publicly by the close of business on the Last Day for Exercise. Any such public announcement shall be made on the JSE news service.

4.2 Delivery of Exercise Notice

Warrant holders will ordinarily not be required to deliver an Exercise Notice (as most Warrants will be exercised automatically), unless the Supplement to any specific issue of Warrants require the delivery of an Exercise Notice. An Exercise Notice for all Warrants requiring the delivery of an Exercise Notice, shall be delivered on or prior to the Last Day for Exercise. Should no Exercise Notice be delivered on or prior to the Last Day for Exercise for a Warrant requiring the delivery of an Exercise Notice, such Warrant shall be exercised automatically and be settled in accordance with Condition 5.3.

The Holder of Equity Warrants not being subject to automatic exercise may, if permitted to do so under the Warrant, exercise Warrants in multiples of the Specified Number on any Business Day during the Exercise Period by delivering to the Sponsor and the Warrant holder's CSDP (for Non-Controlled Warrant holders) or to the Sponsor and the Holder's Member (for Controlled Warrant holders) a duly completed Exercise Notice accompanied by the following:

- a) The Exercise Price in relation to each Specified Number of Warrants to which the Exercise Notice relates;
- b) The Exercise Expenses in relation to each Specified Number of Warrants to which the Exercise Notice relates.

Delivery of an Exercise Notice shall constitute an irrevocable election by the relevant Holder to Exercise the Warrants specified therein. After the Delivery of such Exercise Notice, such Exercising Holder may not otherwise transfer the Warrants to which such Exercise Notice relates.

4.3 Contents of Exercise Notice

The notice given under clause 4.2 shall:

- a) set out the number of Warrants being exercised;
- b) contain an undertaking to pay all Exercise Expenses; and
- c) specify the name and address of the broker any person(s) to whom the Underlying Parcel is to be Delivered and/or into whose name the Underlying Parcel is to be registered and the Warrant holder's CSDP that maintains the

Securities Account to which the Underlying Parcel is to be transferred, and the name and the number of the Holder's account with its Warrant holder's CSDP or bank in Johannesburg to be credited with any cash payable, by the Issuer in connection with exercise or settlement of the Warrant.

4.4 Effectiveness of Exercise Notice

An Exercise Notice in relation to a Warrant becomes effective only upon clearance into the Issuer's bank account on or before the Settlement Date of funds for the Exercise Price plus the applicable Exercise Expenses with respect to the exercised Warrants in respect of Certificated Warrants, or transfer by the Warrant holder's CSDP to the Issuer's CSDP of the funds representing the aggregate of the relevant Exercise Price and Taxes and Duties with respect to the exercised Warrants (in respect of Uncertificated Warrants).

Any Exercise Notice received by any one or more of the Sponsor, the Warrant holder's CSDP or the Holder's Member on any Exercise Date, which is not duly completed, shall be deemed to be null and void.

An Exercise Notice shall further only be effective if delivered on or prior to the Last Day for Exercise.

4.5 Time of Receipt

Any Exercise Notice which is received by the Issuer after 12h00 Johannesburg time, on any Business Day during the Exercise Period is deemed to be received on the next Business Day.

4.6 Aggregation of Exercise Notices

Warrants exercised or deemed exercised on the same day by the same Holder may be aggregated by the Issuer for the purpose of determining the Underlying Parcel to be Delivered to the Holder.

4.7 Verification of the Holder

The Holder hereby authorises the Issuer's CSDP and/or the Sponsor to do all things necessary in order to facilitate verification of the identity of a person exercising the Warrants including, but not limited to, supplying the Holder's Identification Number.

4.8 Determinations

Any determination as to whether an Exercise Notice is duly completed and in proper form shall be made by the Issuer and shall be conclusive and binding on the Issuer, and the relevant Holder. Subject to this condition, any Exercise Notice determined to be incomplete or not in proper form, as the case may be, shall be null and void. If such Exercise Notice is subsequently corrected to the satisfaction of the Issuer, it is deemed to be a new Exercise Notice submitted at the time such correction was delivered to the Issuer.

None of the Issuer, the Calculation Agent, the Issuer's CSDP or the Sponsor shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Holder.

4.9 Minimum Exercise Number

Other than on the Last Day for Exercise, the number of Warrants exercisable by any Holder on any Actual Exercise Date, as determined by the Calculation Agent, shall not be less than the Minimum Exercise Number. Any Exercise Notice which purports to exercise Warrants in an amount less than the Minimum Exercise Number is void and of no effect.

4.10 Maximum Exercise Number

Other than on the Last Day for Exercise, if the Issuer determines that the number of Warrants being exercised on any Actual Exercise Date by any Holder or a group of Holders (whether or not acting in concert) exceeds the Maximum Exercise Number (a number equal to the Maximum Exercise Number being the "Quota"), the Issuer may deem the Actual Exercise Date for the first Quota of such Warrants, selected by the Issuer on the basis of the time at which notices to exercise the Warrants are received by the Issuer with the earlier of such notices taking priority over those which are received later in time, to be such day and the Actual Exercise Date for each additional Quota of such Warrants (and any remaining number thereof) to be each of the succeeding Business Days until all such Warrants have been attributed with an Actual Exercise Date, provided that the deemed Actual Exercise Date for any such Warrants which would thereby fall after the Last Day for Exercise shall fall on the Last Day for Exercise.

4.11 Insufficient Funds

Where an otherwise valid Exercise Notice is received which is accompanied by funds less than the Exercise Price plus Exercise Expenses for the number of Warrants specified in the Exercise Notice, the Issuer may (but is not obliged to) treat the Exercise Notice for all purposes as applying to a smaller number of Warrants for exercise of which sufficient funds are available.

4.12 Set-off in respect of Cash Settled Warrants

In respect of Warrants to be settled by payment of a cash amount, the Issuer reserves the right to set-off the applicable Exercise Price and Taxes plus Duties payable by the Holder as provided for in terms of these Conditions, against the Cash Settlement Amount payable by the Issuer to the relevant Holder. Should the Issuer elect to effect such set-off, the relevant Exercise Notice shall not be ineffective due to the failure of a Holder to transfer (or cause to have transferred) the required Exercise Price plus the Taxes and the Duties to the Issuer's bank account.

4.13 Statements from CSDP after Exercise of Uncertificated Warrants

After Exercise of the relevant Uncertificated Warrants as provided for under this condition 4, such Uncertificated Warrants shall be cancelled, and shall no longer be reflected in the Uncertificated Warrants Account maintained by the Warrant holder's CSDP.

4.14 Undertaking in respect of the Warrant holder's CSDP

Each Holder shall be responsible for ensuring that the relevant Warrant holder's CSDP is aware of the Terms and Conditions contained in this Warrant Programme, and the applicable Supplement, and shall comply with such terms and perform the functions necessary to permit the Exercise of the Warrants as provided therein.

Controlled Warrant holders should ensure that their respective Members inform the Member's CSDP of the Terms and Conditions contained in this Programme and any applicable Supplement, and that such Member's CSDP shall comply with such terms

and perform the functions necessary to permit the exercise of the Warrants as provided therein.

5 Settlement Following Exercise

5.1 Settlement

Subject to the Terms and Conditions and to the provisions of the applicable Supplement, the Warrants may, at the election of the Issuer, be settled by payment of the Cash Settlement Amount, or be settled by delivery of the Underlying Parcel by or to the Issuer.

5.2 Cash Settlement for Automatic Exercise.

All Warrants subject to Automatic Exercise shall be settled by payment of the Cash Settlement Amount.

5.3 Cash Settlement Date

Cash settlement shall take place on the Cash Settlement Date.

5.4 Verification of the Holder

The Holder hereby authorises the Issuer's CSDP and/or Sponsor to do all things necessary in order to facilitate verification of the identity of the Holder of a Warrant including, but not limited to, supplying the Holder's Identification Number.

5.5 Settlement Disruption

If, in the opinion of the Calculation Agent, delivery of the Underlying Parcel is not reasonably practicable by reason of a Settlement Disruption Event having occurred and continuing on any Settlement Date, then such Settlement Date is postponed until the first following Business Day in respect of which there is no such Settlement Disruption Event.

5.6 Cash Settlement Election

If, in the opinion of the Calculation Agent, delivery of the Underlying Parcel is not reasonably practicable by reason of a Settlement Disruption Event having occurred and continuing on any Settlement Date, the Issuer may elect by notice to a Holder to satisfy its obligations in respect of any Specified Number of Warrants by payment of the Cash Settlement Amount.

5.7 Cash Settlement Following Settlement Disruption

Where the Issuer has given a notice under Condition 5.6, the Issuer shall, as soon as reasonably practicable after the notice is given and in any event in accordance with the rules of Strate and/or the JSE, pay to the Holder the Cash Settlement Amount.

5.8 Cash Settlement If No Settlement Disruption

The Issuer may in its absolute discretion choose not to effect delivery of the Underlying Parcel in accordance with Condition 5.14 and in such case the Issuer shall on the Settlement Date or as soon as practicable thereafter and in any event in accordance with the Rules of Strate and/or the JSE, pay to the Holder an amount equal to the Cash Settlement Amount.

5.9 Cash Settlement Amount in respect of Equity Warrants

In respect of Equity Call Warrants, the Cash Settlement Amount shall be determined by the Calculation Agent as the amount, in respect of each Underlying Parcel, by which the Settlement Price exceeds the Exercise Price unless such amount is negative in which case the Cash Settlement Amount is zero.

In respect of Equity Put Warrants, the Cash Settlement Amount shall be determined by the Calculation Agent as the amount, in respect of each Underlying Parcel, by which the Exercise Price exceeds the Settlement Price unless such amount is negative in which case the Cash Settlement Amount is zero.

5.10 Barrier Warrants Cash Settlement Amount

In the event of the Barrier Level being breached the holder of the Warrant will be entitled to receive a rebate of any intrinsic value if any, of the Warrants. The intrinsic value in respect of a Barrier call is the excess (if any) of the share price over the exercise price when the Warrants terminate. The intrinsic value in respect of a Barrier put is the excess (if any) of the Exercise Price The share price used for calculating the rebate will be the weighted average share price for the specified number of days following the termination of the Warrant.

5.10 Index Put Warrants Cash Settlement Amount

The Cash Settlement Amount in respect of a series of Index Put Warrants shall be determined by the Calculation Agent in terms of the following formula:

$$\text{CSA} = (\text{EP} - \text{CIL}) \times \text{IM}$$

Where:

- CSA = the Cash Settlement Amount, provided that where CSA is determined to be a negative number, CSA shall equal zero;
- CIL = Closing Index Level;
- EP = the Exercise Price in respect of that Series, and
- IM = the Index Multiplier.

5.11 Index Call Warrants Cash Settlement Amount

The Cash Settlement Amount in respect of a series of Index Call Warrants shall be determined by the Calculation Agent in terms of the following formula:

$$\text{CSA} = (\text{CIL} - \text{EP}) \times \text{IM}$$

Where:

- CSA = the Cash Settlement Amount, provided that where CSA is determined to be a negative number, CSA shall equal zero;
- CIL = Closing Index Level;
- EP = the Exercise Price in respect of that Series, and
- IM = the Index Multiplier.

5.12 Payments

Any cash which a Holder is entitled to receive in terms of these Conditions shall, subject to these Conditions, be paid to the Holder or to the Warrant holder's CSDP on the Cash Settlement Date by the Sponsor or the Issuer's CSDP on behalf of the Issuer.

Any such payment shall be effected by initiating an electronic funds transfer, as determined by the Sponsoring Broker, to the account referred to in the Exercise Notice after deduction of any unpaid portion of the Exercise Price and Exercise Expenses.

5.13 Cash Settlement for non-Automatic Exercise:

If by 12h00 on the Last Day for Exercise:

- a) no valid Exercise Notice has been given in relation to a Warrant; and
- b) the Cash Settlement Amount is greater than ten Rand (R10.00);

then the Issuer shall pay the Holder on the Cash Settlement Date or as soon as reasonably practicable thereafter and in any event in accordance with the Rules of the JSE, in the case of Equity Warrants, and Index Warrants, the Cash Settlement Amount provided that the terms of this Condition 5.13 may be amended in a Supplement.

5.14 Delivery of Underlying Parcel

Subject to this Condition 5, following receipt of a valid Exercise Notice which has become effective under Condition 4.4 the Issuer shall on the Settlement Date or as soon as reasonably practicable thereafter and in any event in accordance with the Rules of the JSE, in accordance with the Exercise Notice procure the delivery of the Underlying Parcel (in respect of Equity Call Warrants), or take delivery of the Underlying Parcel (in respect of Equity Put Warrants) or make payment of the Cash Settlement Amount in respect of each Specified Number of Warrants the subject of the Exercise Notice.

The Issuer shall only effect Settlement by procuring the delivery (for Call Warrants) or taking delivery of the Underlying Parcel (for Put Warrants) in respect of those Warrants which require the delivery of an Exercise Notice and for which a valid Exercise Notice has been delivered.

6 Illegality

6.1 Performance

If the Issuer, upon advice from its independent external legal counsel, determines that the performance of its obligations under the Warrants has become illegal in whole or in part for any reason, the Issuer may cancel the Warrants by giving notice of this to Holders.

6.2 Suspension of Related Products

If a future or option over which a Warrant is traded or which has the same Underlying Shares as a Warrant issued under this Programme, is suspended for a period in excess of one Business Day, then, subject to approval of the JSE, the Issuer may cancel that Warrant by giving notice of this to Holders. If the Issuer cancels the Warrants in terms hereof, then the Warrant shall automatically lapse and cease to confer any rights on the holder at the time the Issuer notifies the Holder of such cancellation.

6.3 Compensation for Cancellation

If the Issuer cancels Warrants under Condition 6.1 or 6.2 then it shall, if and to the extent permitted by applicable law, pay to each Holder in respect of each Warrant held an amount which shall be the fair market value of such Warrant less the cost to the

Issuer of unwinding any underlying related hedging arrangements plus, if already paid, the Exercise Price, all as determined by the Calculation Agent.

13 Adjustments

13.1 Potential Adjustment Events

A "Potential Adjustment Event" ("Adjustments") means in relation to Shares, any of the following:

- a) a subdivision, consolidation, or reclassification of Shares (unless a Merger Event, but including any unbundling or de-merger) or a free distribution or dividend of any Shares to existing Holders by way of bonus, capitalisation or similar issue;
- b) a distribution, issue or dividend to existing Holders of the Shares of (a) Shares or (b) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the Company or equally or proportionately with such payments to holders of Shares or (c) any other type of securities, rights or warrants or other assets, in any case for payment (in cash or otherwise) at less than the prevailing market price as determined by the Issuer;
- c) a call in respect of Shares that are not fully paid;
- d) a repurchase of Shares whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise; or
- e) any other similar event having, in the opinion of the Calculation Agent, a diluting or concentrative effect on the theoretical value of the Underlying Shares, which events may include but are not limited to-
 - (i) closing times which are different to the closing times on the JSE;
 - (ii) suspension of the market on which the Underlying Shares are traded;
 - (iii) failures by reference market makers or other quotation providers to provide quotations on the relevant Underlying Shares; or
 - (iv) the modification of quotations provided by quotation providers mentioned under Condition 13.1(e)(iii) above.

13.2 Effect of Potential Adjustment Event

Following the declaration of the terms of any Potential Adjustment Event, the Calculation Agent shall determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the Shares and, if so, shall, subject to approval of the JSE,

- (i) make the corresponding adjustment, if any, to the Underlying Parcel, the Exercise Price, the Barrier Level or any of the terms of these Conditions as the

Calculation Agent determines appropriate to account for that diluting or concentrative effect; and

- (ii) determine the effective date of that adjustment.

The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Shares traded on that options exchange.

The adjustment in respect of a sub-division in 13(1)(a) above shall, subject to the discretion of the Calculation Agent, be substantially as follows:

Exercise Price Adjustments

All positions will be multiplied by a factor

Factor = No. of new shares in issue prior to the Adjustment / no. of shares in issue post the Adjustment

The strike price will be adjusted as follows:

Adjusted strike = current strike * Factor

Conversion Ratio's

Conversion ratio is adjusted as follows:

Conversion Ratio = Current Ratio * Factor

Capital Reductions and Special Dividends

Strike Adjustment

Spot_{cum div}: Spot Price on cum dividend date

Strike_{cum div}: Current Strike Price

Strike_{ex div}: Strike Price after the adjustment has been made

Div Adjustment: Excess Dividend declared

Factor = $\text{Spot}_{\text{cum div}} / (\text{Spot}_{\text{cum div}} - \text{Div Adjustment})$

$\text{Strike}_{\text{ex div}} = (\text{Strike}_{\text{cum div}}) \times 1 / \text{Factor}$

Conversion Ratio

New Ratio = warrant conversion Ratio / Factor

The adjustment in respect of a rights issue in 13(1)(b) above shall, subject to the discretion of the Calculation Agent, be substantially as follows:

:

$$\text{factor} = \frac{\text{Close of share on ldt}}{((m * \text{Close of Share on ldt} + n * \text{TU}) / (m + n))}$$

Where :

m = number of shares held on ldt

n = number of shares to be received ex date

TU = Implied value of rights (take-up price)

Option Strike Price

$$\text{Adjusted strike price} = \text{Existing strike price} * \frac{1}{\text{factor}}$$

Conversion Ratio

$$\text{New Ratio} = \text{Old conversion ratio} * 1/\text{CSM}$$

13.3 Notice of Adjustment

Upon the occurrence of any such adjustment, the Calculation Agent shall give notice as soon as practicable to the Holders setting out the adjustment of the Underlying Parcel, the Exercise Price, Barrier Level or the Conditions and giving brief details of the Potential Adjustment Event.

13.4 Other Events

In this Condition 13:

- a) "Insolvency" means that by reason of the voluntary or involuntary liquidation, bankruptcy or winding-up of or any analogous proceeding affecting a Company:
 - (i) all the Shares are required to be transferred to a trustee, liquidator or other similar official; or
 - (ii) holders of the Shares become legally prohibited from transferring them.
- b) "Merger Date" means, in respect of a Merger Event, the date upon which all Holders of Shares (other than, in the case of a take-over offer, Shares owned or controlled by the offeror) have agreed or have irrevocably become obliged to transfer their Shares.

- c) "Merger Event" means any:
- (i) reclassification or change of the Shares that results in a transfer of or an irrevocable commitment to transfer all outstanding Shares;
 - (ii) consolidation, amalgamation, or merger of a Company with or into another entity (other than a consolidation, amalgamation or merger in which such Company is the continuing entity and which does not result in any such reclassification or change of all outstanding Shares); or
 - (iii) other take-over offer for the Shares that results in a transfer of or an irrevocable commitment to transfer all the Shares (other than the Shares owned or controlled by the offeror),

in each case if the Merger Date is on or before the relevant Actual Exercise Date.

- d) "Nationalisation" means that all the Shares or all the assets or substantially all the assets of a Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority or entity.

13.5 Effects of Other Events

If a Merger Event, Nationalisation or Insolvency occurs in relation to a Share, the Calculation Agent may:

- a) determine the appropriate adjustment, if any, to be made to the Underlying Parcel or to these Conditions to account for the Merger Event, Nationalisation or Insolvency, as the case may be, and determine the effective date of that adjustment. The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the Merger Event, Nationalisation or Insolvency made by any options exchange to options on the Shares traded on that options exchange; or
- b) cancel the Warrants by giving notice to Holders. If the Warrants are so cancelled the Calculation Agent shall pay an amount to each Holder in respect of each Warrant held by him which amount shall be the fair market value of a Warrant taking into account the Merger Event, Nationalisation or Insolvency, as the case may be, less the cost to the Issuer of unwinding any underlying related hedging arrangements plus, if already paid, the Exercise Price, all as determined by the Calculation Agent in its opinion. Payments will be made in such manner as shall be notified to the Holders.

13.6 Notice of Other Events

Upon the occurrence of a Merger Event, Nationalisation or Insolvency, the Calculation Agent shall give notice as soon as practicable to the Holders stating the occurrence of the Merger Event, Nationalisation or Insolvency, as the case may be, giving details thereof and the adjustments to be made to the Underlying Parcel, the Exercise Price or the Conditions and other action to be taken in relation thereto.

13.7 Effect of Potential Adjustment Events and/or Other Events on the Rights of the Warrant Holders

- 13.7.1 Save to the extent that the Calculation Agent has adjusted the Underlying Parcel, Exercise Price, Barrier Level or the Conditions in accordance with the provisions of this

clause 13, the rights as conferred upon the Warrant Holders in terms of any specific Warrant shall remain unaffected, subject to the provisions of clause 13.7.2 hereunder.

- 13.7.2 To the extent that the Calculation Agent determines that the appropriate adjustment upon the occurrence of a Potential Adjustment Event or Other Event, as the case be, in accordance with the provisions of this clause 13 shall be the cancellation of the Warrant, such Warrant shall automatically lapse and cease to confer any rights on the Holder as at the time the Issuer notifies the Holders of such cancellation.

14 Substitute Index and Adjustment

14.1 Calculation by Successor

If on or prior to the Expiration Date the Index ceases to be published by the JSE (or any successor thereto) but is published by any successor to such person the index so calculated shall become the Index.

14.2 Substitute Index

If on or prior to the Expiration Date:

- a) the Index ceases to be published by the JSE (or any successor under Condition 14.1); or
- b) the JSE (or any successor under Condition 14.1) makes any material change to the formula for or the method of calculating the Index in a way that materially modifies the Index (other than a modification prescribed in that formula or method to maintain the Index in the event of changes to the constituent shares and capitalisation or other routine event),

then, subject to JSE approval,

- c) where another index is or commences to be published which in the opinion of the Calculation Agent is substantially equivalent to the original Index, the Issuer may substitute that other index for the Index;
- d) where the Issuer does not make the substitution referred to in paragraph (c), the Issuer may instead require the Calculation Agent to determine the level of the Index in accordance with Condition 14.3 and refer to the level of the Index so calculated to determine the Index Level and closing Index Level.

14.3 Calculation of Index by Calculation Agent

Where the Issuer requires the Calculation Agent to determine the level of the Index, the Calculation Agent shall use the same formula and method for calculating the Index as was used by the JSE (or any successor under Condition 14.1) prior to the cessation or change, except that only those securities which comprised the Index immediately prior to the cessation or change are to be used subsequently to determine the level of the Index (excluding securities which cease to be traded on the JSE).

14.4 Adjustments

Where:

- a) a Substitute Index is substituted for the Index under Condition 14.2(c); and

- b) at the time the substitution takes place the Index Level of the Substitute Index is not exactly the same as the Index Level of the original Index immediately before the substitution takes place,

then the adjustments specified in Condition 14.5 shall take effect immediately the substitution takes place.

14.5 Adjustment

The adjustments required under Condition 14.4 are as follows:

The Exercise Price of each Index Warrant shall be adjusted in line with the following formula:

a)
$$E = \frac{P \cdot N}{L}$$

Where:

E = the new Exercise Price of the Index Warrant;

P = the Exercise Price of the Index Warrant immediately before the substitution takes place;

N = the Index Level of the Substitute Index immediately after the substitution takes place; and

L = the Index Level of the original Index immediately before the substitution takes place.

- b) The Index Multiplier of each Index Warrant shall be adjusted in line with the following formula:

$$I = \frac{M \cdot L}{N}$$

Where:

I = the new Index Multiplier;

L = the Index Level of the original Index immediately before the substitution takes place;

N = the Index Level of the Substitute Index immediately after the substitution takes place; and

M = old Index Multiplier.

The integrated annual report has been compiled in accordance with the integrated reporting principles contained in the Code of Corporate Practices and Conduct set out in the King Report on Corporate Governance for South Africa 2009 (King Code). This report covers all our operations across the various geographies in which we operate and has been structured to provide stakeholders with relevant financial and non-financial information to enable them to obtain a balanced view of our business.

This is the first integrated report we have produced and we acknowledge that local and international guidelines on integrated reporting are still at an early stage of development.

Further information is available on our website: www.investec.com

King III Code of Corporate Governance Compliance

The majority of the principles of King III are being applied by Investec as is evidenced in the various sections of the Investec group's 2012 annual report. The following principle of King III is currently not being applied by Investec Bank Limited:

- Sustainability reporting and disclosure should be independently assured – Sustainability reporting and related disclosure was not independently assured by an external expert. The audit committees have overseen the integrated report, including sustainability disclosures, which have been verified by the Internal Audit division – We recognise the importance of sustainability reporting and verification of our efforts in this area. During the 2012 financial year, we designed and implemented a reporting system to align our sustainability process across the group and accordingly we will be able to commission external verification for the 2013 financial year.

Substitute Index:</p> <p>If on or prior to the Maturity Date:</p> <p>e) the Index ceases to be published by the Exchange (or any successor); or</p> <p>f) the Exchange (or any successor) makes any material change to the formula for or the method of calculating the Index in a way that materially modifies the Index (other than a modification prescribed in that formula or method to maintain the Index in the event of changes to the constituent shares and capitalisation or other routine event),</p> <p>then, subject to JSE approval,</p> <p>a) where another index is or commences to be published which in the opinion of the Calculation Agent is substantially equivalent to the original Index, the Issuer may substitute that other index for the Index; or</p> <p>b) where the Issuer does not make the substitution referred to in paragraph (a), Calculation Agent Determination shall apply.</p>

means that the Calculation Agent will determine the Index Level (or a method for determining a Index Level), taking into consideration the latest available quotation for the Index and any other information in good faith it deems relevant, subject to the approval of the JSE.

If, in the opinion of the Calculation Agent, a Market Adjustment Event (as defined above) has occurred and is continuing on any Trade Date, the Index Level for that Trade Date will be determined by the Calculation Agent in accordance with the provision set out above. For the avoidance of doubt, the provisions of clause 14 of the Terms and Conditions shall not apply to this Pricing Supplement.

Following the declaration of the terms of any Market Adjustment Event, the Calculation Agent will determine whether such Market Adjustment Event has an effect on the theoretical value of the ETN and, if so, will, subject to approval of the JSE:

- (i) make the corresponding adjustment, if any, to Cover Ratio, the ETN Price or Cash Settlement Amount, or any of the terms of these Conditions as the Calculation Agent determines appropriate; and
- (ii) determine the effective date of that adjustment; or
- (iii) cancel the ETN by giving notice to Holders. If the ETNs are cancelled, the Calculation Agent shall pay an amount to each Holder in respect of each ETN held by him which amount shall be the fair market value of an ETN taking into account the Market Adjustment Event, less the cost to the Issuer of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its opinion. Payments will be made in such manner as shall be notified to the Holders.

Effect of Market Adjustment Events on the Rights of the Holders:

Save to the extent that the Calculation Agent has adjusted the Cover Ratio, ETN Price, Cash Settlement Amount or the Conditions in accordance with the provisions of this Supplement, the rights as conferred upon the Holders in terms of any specific ETN shall remain unaffected, subject to the provisions hereunder.

To the extent that the Calculation Agent determines that the appropriate adjustment upon the occurrence of a Market Disruption, as the case be, in accordance with the provisions of this Supplement shall be the cancellation of the ETN, such ETN shall automatically lapse and cease to confer any rights on the Holder as at the time the Issuer notifies the Holders of such cancellation.

Notice of Adjustment:

Upon the occurrence of any such adjustment, the Calculation Agent shall give notice as soon as practicable to the Holders setting out brief details of the Market Adjustment Event and associated adjustments.
