

UK Private bank account for South African clients

FACTSHEET

The UK Private bank account is a sterling-based transactional account maintained and operated in the UK.

As a Private Bank Account client of Investec Bank South Africa, you could also have access to the UK Private bank account.

The account offers full transactional functionality including making and receiving international payments.

Note: Should you close your South African Private Bank Account, your UK Private bank account could be closed.

For a monthly fee of £10 for maintaining the account, you get:

- An Investec Visa debit card with contactless as well as chip and PIN technology
 - Free SMS notifications on account and card activity
 - Access to your account through your same SA Investec Online login and your Investec App
 - The ability to load direct debits and standing orders
- Free cash withdrawal in pounds in the UK*
Exemption from foreign currency fees when you use your UK card in certain countries outside the UK**
(Visit investec.co.uk/spendingabroad for a list of applicable countries). Any transactions made elsewhere will incur a foreign currency fee of 2% of the value of the transaction

What the UK Private bank account does not offer:

The UK Private bank account has been designed as a secondary Account. It therefore does not offer all the features and benefits your South African Private Bank Account does, including:

- No arranged overdraft facility
- No interest on credit balances
- No additional cards
- No third-party access to your account (multiple user access)
- No rewards programme
- No travel insurance
- No Private Banker in the UK – the 24/7 global Client Support Centre is available to assist and support you regarding service-related queries

How to apply for the UK Private bank account

- Log into Investec Online (www.investec.co.za)
- From the 'Overview' page, click on 'Open a new account'. Under 'Bank', select 'UK Private bank account'
- Alternatively, please contact your Private Banker

[^] Only available to residents of South Africa and the United Kingdom

* Foreign cash machine providers might charge a fee for using their machines to withdraw cash in a foreign currency outside the UK

** This includes debit card payments in a foreign currency, receiving a credit (eg refund) to your debit card in a foreign currency, or making a cash withdrawal in foreign currency
