ANNEX

Summary

Summaries are made up of disclosure requirements known as "Elements". These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted in the summary because of the type of securities and issuer, it is possible that no relevant information can be given regarding the Element. In this case, a short description of the Element is included in the summary with the mention of "Not Applicable".

SECTION A – INTRODUCTION AND WARNINGS		
A.1	Introduction:	<p>This summary should be read as an introduction to the Base Prospectus and any decision to invest in the Notes should be based on a consideration of the Base Prospectus as a whole by the investor.</p> <p>Where a claim relating to the information contained in the Base Prospectus is brought before a court, the plaintiff investor might, under the national legislation of the Member State, have to bear the costs of translating the Base Prospectus before the legal proceedings are initiated.</p> <p>Civil liability attaches only to those persons who have tabled the summary including any translation thereof, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of the Base Prospectus or it does not provide, when read together with the other parts of the Base Prospectus, key information in order to aid investors when considering whether to invest in the Notes.</p>
A.2	Consent:	Not Applicable. The Issuer does not consent to the use of this Base Prospectus in circumstances where there is no exemption from the obligation under the Prospectus Directive to publish a prospectus as the Notes will not be publicly offered.

SECTION B – ISSUER		
B.1	Legal and commercial name of the Issuer:	The legal name of the issuer is Investec Bank plc (the "Issuer").
B.2	Domicile and legal form of the Issuer:	<p>The Issuer is a public limited company registered in England and Wales under registration number 00489604. The liability of its members is limited.</p> <p>The Issuer was incorporated as a private limited company with limited liability on 20 December 1950 under the Companies Act 1948 and registered in England and Wales under registered number 00489604 with the name Edward Bates & Sons Limited. Since then it has undergone changes of name, eventually re-registering under the Companies Act 1985 on 23 January 2009 as a public limited company and is now incorporated under the name Investec Bank plc.</p> <p>The Issuer is subject to primary and secondary legislation relating to financial services and banking regulation in the United Kingdom, including, <i>inter alia</i>, the Financial Services and Markets Act 2000, for the purposes of which the Issuer is an authorised person carrying on the business of financial services provision. In addition, as a public limited company, the Issuer is subject to the UK Companies Act 2006.</p>
B.4b	Trends:	The Issuer, in its unaudited half yearly financial report for the six months ended 30 September 2014, reported an increase of 27.6% in operating profit before non-operating items and taxation to £50.4 million for the six months to 30 September 2014 (2013: £39.5 million). The balance sheet remains strong, supported by sound capital and liquidity ratios. At 30 September 2014, the Issuer had £4.5 billion of cash and near cash to support its activities, representing approximately 34.3% of its liability base. Customer deposits have decreased by 5.2% since 31 March 2014 to £10.5 billion at 30 September 2014, largely as a result of the sale of group assets. The Issuer's loan to deposit ratio was 63.2% as at 30 September 2014 (31 March 2014: 69.9%). At 30 September 2014, the capital adequacy ratio of the Issuer was 16.7% and the tier 1 ratio was 11.4%. The Issuer's anticipated 'fully

		<p>loaded' Basel III common equity tier 1 capital adequacy ratio and leverage ratio are 11.5% and 7.3%, respectively (where 'fully loaded' is based on Basel III requirements as fully phased in by 2022). These disclosures incorporate the deduction of foreseeable dividends as required by the regulations. Excluding this deduction, the common equity tier 1 ratio would be 130bps higher. The credit loss charge as a percentage of average gross core loans and advances amounted to 1.20% at 30 September 2014 (31 March 2014: 1.00%). The Issuer's gearing ratio remains low with total assets to equity decreasing to 10.2 times at 30 September 2014.*</p> <p><i>* All financial information in respect of the six month period ended 30 September 2014 has been prepared following the adoption of IFRIC 21 on 1 April 2014. Comparative figures from 31 March 2014 contained in this Element B.4b (Trends) are taken from the unaudited half yearly financial report of the Issuer for the six month period ended 30 September 2014 which restated 31 March 2014 financial information as adjusted to reflect IFRIC 21.</i></p>
B.5	The group:	The Issuer is the main banking subsidiary of Investec plc, which is part of an international banking group with operations in two principal markets: the United Kingdom and South Africa. The Issuer also holds certain of the Investec group's UK based assets and businesses.
B.10	Audit Report Qualifications:	Not Applicable. There are no qualifications in the audit reports on the audited, consolidated financial statements of the Issuer and its subsidiary undertakings for the financial years ended 31 March 2013 or 31 March 2014.

B.12	Key Financial Information:	The selected financial information set out below has been extracted without material adjustment from the audited consolidated financial statements of the Issuer for the years ended 31 March 2013 and 31 March 2014 and the unaudited half yearly financial report of the Issuer for the six month period ended 30 September 2013 and the six month period ended 30 September 2014.

For further details please see the section entitled "Restatements" in the unaudited half yearly financial report of the Issuer for the six month period ended 30 September 2014.</p>				
		There has been no material adverse change in the prospects of the Issuer since the financial year ended 31 March 2014, the most recent financial year for which it has published audited financial statements.				

B.13	Recent Events:	Not Applicable. There have been no recent events particular to the Issuer which are to a material extent relevant to the evaluation of its solvency.
B.14	Dependence upon other entities within the Group:	<p>The Issuer is a wholly owned subsidiary of Investec plc.</p> <p>The Issuer and its subsidiaries form a UK-based group (the "Group"). The Issuer conducts part of its business through its subsidiaries and is accordingly dependent upon those members of the Group. The Issuer is not dependent on Investec plc.</p>
B.15	The Issuer's Principal Activities:	<p>The principal business of the Issuer consists of 'Wealth & Investment and Specialist Banking'.</p> <p>Investec is an international specialist bank and asset manager that provides a diverse range of financial products and services to a niche client base in two principal markets, the United Kingdom and South Africa as well as certain other countries. As part of its business, the Issuer provides investment management services to private clients, charities, intermediaries, pension schemes and trusts as well as specialist banking services focusing on corporate advisory and investment activities, corporate and institutional banking activities and private banking activities.</p>
B.16	Controlling Persons:	The whole of the issued ordinary and preference share capital of the Issuer is owned directly by Investec plc. The Issuer is not indirectly controlled.
B.17	Credit Ratings:	<p>The long-term senior debt of the Issuer has a rating of BBB- as rated by Fitch. This means that Fitch is of the opinion that the Issuer has a good credit quality and indicates that expectations of default risk are currently low.</p> <p>The long-term senior debt of the Issuer has a rating of Baa3 as rated by Moody's. This means that Moody's is of the opinion that the Issuer is subject to moderate credit risk, is considered medium-grade, and as such may possess certain speculative characteristics.</p> <p>The long-term senior debt of the Issuer has a rating of BBB+ as rated by Global Credit Rating. This means that Global Credit Rating is of the opinion that the Issuer has adequate protection factors and is considered sufficient for prudent investment. However, there is considerable variability in risk during economic cycles.</p> <p>The Notes to be issued have not been specifically rated.</p>

SECTION C – SECURITIES

C.1	Description of Type and Class of Securities:	<p>Issuance in series: The Notes will be issued in series ("Series") which may comprise one or more tranches ("Tranches") issued on different issue dates. The Notes of each Tranche of the same series will all be subject to identical terms, except for the issue dates and/or issue prices of the respective Tranches.</p> <p>The Notes are issued as Series number ZCP 2015-25S, Tranche number 1.</p> <p>Form of Notes: The applicable Final Terms will specify whether the relevant Notes will be issued in bearer form ("Bearer Notes"), in certificated registered form ("Registered Notes") or in uncertificated registered form ("Uncertificated Registered Notes"). Registered Notes and Uncertificated Registered Notes will not be exchangeable for other</p>
-----	---	--

		<p>forms of Notes and vice versa.</p> <p>The Notes are issued in bearer form.</p> <p>Security Identification Number(s): The following security identification number(s) will be specified in the Final Terms.</p> <p>ISIN Code: XS1242977293</p> <p>Common Code: 124297729</p> <p>Sedol: Not Applicable</p>
C.2	Currency of the Securities Issue:	<p>Currency: Subject to any applicable legal or regulatory restrictions, the Notes may be issued in any currency (the "Specified Currency").</p> <p>The Specified Currency of the Notes is United States Dollars ("USD").</p>
C.5	Free Transferability:	<p>The Notes are freely transferable. However, applicable securities laws in certain jurisdictions impose restrictions on the offer and sale of the Notes and accordingly the Issuer and the dealers have agreed restrictions on the offer, sale and delivery of the Notes in the United States, the European Economic Area, Isle of Man, South Africa, Guernsey and Jersey, and such other restrictions as may be required in connection with the offering and sale of a particular Tranche of Notes in order to comply with relevant securities laws.</p>
C.8	The Rights Attaching to the Securities, including Ranking and Limitations to those Rights:	<p>Security and collateral: The Notes are secured (the "Secured Notes"). The Notes will constitute direct, unconditional, unsubordinated secured obligations of the Issuer that will rank pari passu among themselves. The Issuer will create security over a collateral pool to secure a specified portion (the "Secured Portion") of its obligations in respect of the Notes. The collateral pool secures more than one Series of Secured Notes.</p> <p>Interest: The Notes are non-interest bearing.</p> <p>Redemption of the Notes: The Notes will be redeemed on their Maturity Date.</p> <p>In addition, the Notes may be redeemed prior to their stated maturity for taxation reasons, on account of certain events affecting the Preference Shares or following an event of default.</p> <p>Payments of Principal: Payments of principal in respect of Notes will in all cases be calculated by reference to the percentage change in value of one or more preference shares issued by Zebra Capital II Limited ("Preference Shares") in respect of the relevant series of Notes. The terms of each class of Preference Shares will be contained in the Memorandum and Articles of Association of Zebra Capital II Limited and the Preference Share confirmation relating to such class.</p> <p>The redemption price of each class of Preference Shares will be calculated by reference to a single share, a basket of shares, an index or a basket of indices (the "Underlying"). The Underlying for the Notes is an index.</p> <p>Credit Linkage: 100% of the Credit Linked Note is linked to a Preference Share which is credit-linked to a specified Reference Entity, namely The Goldman Sachs Group, Inc. (the "Credit Linked Preference Shares").</p> <p>Taxation: All payments in respect of the Notes will be made without deduction for or on account of withholding taxes imposed by the United</p>

		<p>Kingdom unless such withholding or deduction is required by law. In the event that any such deduction is made, the Issuer will not be required to pay any additional amounts in respect of such withholding or deduction.</p> <p>Denomination: The Notes will be issued in denominations of USD1,000.</p> <p>Governing Law: English law</p>
C.11	Listing and Trading:	<p>This document has been approved by the FCA as a base prospectus in compliance with the Prospectus Directive and relevant implementing measures in the United Kingdom for the purpose of giving information with regard to the Notes issued under the Programme described in the Base Prospectus during the period of twelve months after the date hereof. Application has also been made for the Notes to be admitted during the twelve months after the date hereof to listing on the Official List of the FCA and to trading on the Regulated Market of the London Stock Exchange plc (the "London Stock Exchange").</p> <p>Application will be made for the Notes to be admitted to listing on the Official List of the FCA and to trading on the London Stock Exchange effective on or around the Issue Date.</p>
C.15	Effect of value of underlying instruments:	<p>The performance of an underlying asset/instrument (being an index, share, basket of shares or basket of indices (the "Underlying")), determines the redemption price and final value (on a one for one basis) of a class of preference share issued by Zebra Capital II Limited (the "Preference Share"), a special purpose vehicle incorporated in the Cayman Islands which is independent of the Issuer and whose business consists of the issuance of Preference Shares in connection with the Programme.</p> <p>The percentage change in the final value of the relevant Preference Share or Preference Shares compared to its or their issue price is then used to calculate the value and return on the Notes.</p> <p>As a result, the potential effect of the performance of the Underlying on the return on the Notes means that investors may lose some or all of their investment.</p> <p>For the avoidance of doubt, the Notes are not backed by or secured on the Preference Shares and, accordingly, only a nominal amount of the Preference Shares may be issued by Zebra Capital II Limited regardless of the principal amount of the applicable issuance of Notes by the Issuer.</p> <p><i>In this section, for ease of explanation rather than refer to the Notes being linked to the value of the Preference Share which is in turn linked to the Underlying, the Notes (including the return on the Notes) are described as being linked to the Underlying.</i></p> <p>The redemption amount of the Notes is linked to the performance of the EURO STOXX 50® Index.</p> <p>If the performance of the Underlying on any of the dates specified below (the "Automatic Early Redemption Valuation Dates"), is greater than the level specified (the "Automatic Early Redemption Level"), the Notes will be redeemed at the relevant amount specified below (the "Automatic Early Redemption Amount") on the applicable date prior to maturity (the "Automatic Early Redemption Date");</p>

		<p>*Provided that if the Automatic Early Redemption Valuation Date is not a Scheduled Trading Day, the immediately preceding Scheduled Trading Day shall be the Automatic Early Redemption Valuation Date.</p> <p>The market price or value of the Notes at any times is expected to be affected by changes in the value of the Preference Share and the Underlying and the likelihood of the occurrence of a credit event in relation to The Goldman Sachs Group, Inc. (the "Reference Entity").</p> <p>If the Reference Entity becomes subject to a Credit Event, the value of the portion of the Notes linked to the relevant Reference Entity (the "Relevant Portion") will be linked to a recovery rate (the "Recovery Rate") determined by reference to an auction coordinated by the International Swaps and Derivatives Association, Inc. ("ISDA") in respect of certain unsubordinated debt obligations of the Reference Entity or, in certain circumstances, including if such an auction is not held, a market price as determined by Investec Bank plc in its capacity as preference share calculation agent (the "Preference Share Calculation Agent"). Details regarding ISDA auctions can be obtained as of the date hereof on ISDA's website, which is currently www.isda.org.</p>			
C.16	Expiration or maturity date:	The Maturity Date of the Notes is 28 May 2021.			
C.17	Settlement procedure:	The Notes will be cash-settled.			
C.18	Return on securities:	<p>The Notes that may be issued under the Programme are Upside Notes with Capital at Risk, Kick-Out Notes with Capital at Risk, Multi Equity Kick-Out Notes with Capital at Risk, N-Barrier Equity Linked Notes (Accumulation) with Capital at Risk or Range Accrual Equity Linked Notes (Accumulation) with Capital at Risk.</p> <p>The performance of an underlying asset (being an index, share, basket of shares or basket of indices (the "Underlying")), determines the redemption price of a class of preference shares (the "Preference Share"). This redemption price is used to calculate the final value of such Preference Share on a one for one basis. The percentage change in the final value of the Preference Share as against its issue price is then used to calculate the return on the Notes. As a result, the potential effect of the value of the underlying on the return on the Notes means that investors may lose some or all of their investment.</p>			

In this section, for ease of explanation rather than refer to the Notes being linked to the value of the Preference Share which is in turn linked to the Underlying, Notes (including the return on the Notes) are described as being linked to the Underlying.

In this Element C, if the applicable Notes are linked to Preference Shares which are not linked to an index but are linked to a share, basket of shares or basket of indices, any reference in this Element C to "index" shall be construed as including, in the alternative, a reference to "share", "basket of indices" and "basket of shares" (as applicable) and, consequently, references to:

(i) "level" in respect of a single index shall be construed as references to "price" in respect of a single share, "the weighted average of the level of each index in the basket" in respect of a basket of indices, and "the weighted average of the price of each share in the basket" in respect of a basket of shares;

(ii) "initial index level" in respect of a single index shall be construed as "initial share price" in respect of a single share, "the weighted average of the initial index level of each index in the basket" in respect of a basket of indices, and "the weighted average of the initial share price of each share in the basket" in respect of a basket of shares; and

(iii) "final index level" in respect of a single index shall be construed as references to "final share price" in respect of a single share, "the weighted average of the final index level of each index in the basket" in respect of a basket of indices, and "the weighted average of the final share price of each share in the basket" in respect of a basket of shares.

Kick-Out Notes with Capital at Risk: The Notes are zero coupon Kick-Out Notes with Capital at Risk.

These Notes have the potential for early maturity (kick out) on a certain date or dates specified in the Final Terms, depending on the level or price of the Underlying at that time. If the Notes kick out early an investor will receive a return of their initial investment plus a fixed percentage payment.

If there has been no kick out, the return on the Notes at maturity will be based on the performance of an Underlying, and in certain circumstances this may result in the investor receiving an amount less than their initial investment.

The potential payouts at maturity for Kick Out Notes with Capital at Risk are as follows:

Scenario A – Upside Return or Digital Return

If at maturity the level or price of the Underlying is greater than a specified percentage of the initial level or price of the Underlying, an investor will receive either:

- "Upside Return", being their initial investment plus a percentage based on the difference between the final level or price of the Underlying, and the initial level or price of the Underlying (as applicable); this additional return may be subject to a cap (i.e. maximum amount) or gearing (i.e. a percentage by which any change in the level or price of the Underlying is multiplied); or
- "Digital Return", being their initial investment multiplied by a

specified percentage.

Scenario B – No Return

At maturity investors may receive their initial investment with no additional return in the following circumstances, depending on whether a "Trigger Event"* is specified as applicable in the Final Terms.

- If Trigger Event is specified as applicable in the Final Terms:

If at maturity the level or price of the Underlying is less than or equal to a specified percentage of the initial level or price of the Underlying (as applicable), an investor will receive its initial investment with no additional return, provided that a Trigger Event has not occurred.

- If Trigger Event is not specified as applicable in the Final Terms:

If at maturity the level or price of the Underlying is equal to a specified percentage of the initial level or price of the Underlying (as applicable), an investor will receive its initial investment with no additional return.

Scenario C – Loss of Investment

If at maturity the level or price of the Underlying is less than or equal to a specified percentage of the initial level or price of the Underlying (as applicable) and (only if specified as applicable in the Final Terms) a Trigger Event has occurred, an investor's investment will be reduced by 1% for every 1% fall of the level or price of the Underlying at maturity.

*A "Trigger Event", where specified as applicable in the relevant Final Terms, is the fall in the level or price of the Underlying below a specified percentage of the initial level or price of the Underlying either: (i) at any time during the period specified in the relevant Final Terms or (ii) on a particular date or dates specified in the relevant Final Terms.

Credit Linked: The Notes are linked Preference Shares which are linked to the solvency of The Goldman Sachs Group, Inc. (the "**Reference Entity**"). If a Reference Entity becomes insolvent, defaults on its payment obligations or is the subject of a governmental intervention (where relevant) or a restructuring of its debt obligations then the redemption price which would otherwise be payable in respect of the Relevant Portion will be reduced. The redemption price payable in respect of the insolvency of the Reference Entity will be determined by reference to an auction coordinated by the International Swaps and Derivatives Association, Inc. ("**ISDA**") in respect of certain unsubordinated debt obligations of the Reference Entity or, in certain circumstances, including if such an auction is not held, a market price as determined by Investec Bank plc in its capacity as preference share calculation agent (the "**Preference Share Calculation Agent**"). Details regarding ISDA auctions can be obtained as of the date hereof on ISDA's website, which is currently www.isda.org.

C.19	Exercise price or final reference price of the underlying:	<p>The performance of an underlying asset (being an index, share, basket of shares, basket of indices or worst performing index or share in a basket of indices or shares). The "Underlying" for the Notes is an index, determines the redemption price of a class of preference share (the "Preference Share"), such redemption price being used to calculate the final value of such Preference Shares on a one for one basis. The percentage change in the final value of the Preference Share compared to its issue price is then used to calculate the return on the Notes.</p> <p><i>In this section, for ease of explanation rather than refer to the Notes being linked to the value of the Preference Share which is in turn linked to the Underlying, Notes (including the return on the Notes) are described as being linked to the Underlying.</i></p> <p>The determination of the performance of the Underlying will be carried out by the Preference Share Calculation Agent, being Investec Bank plc.</p> <p>The Preference Shares Calculation Agent will compare an initial level of the Underlying with a final level of the Underlying.</p> <p>The initial level of the Underlying will be the closing level on the Issue Date.</p> <p>The final level of the Underlying will be the arithmetic average of the official closing level on each scheduled trading day in the period from and including a final averaging start date to and including the final averaging end date.</p> <p>The level of the Underlying used to determine whether or not an automatic early redemption is applicable will be the closing level as at the valuation time on each automatic early redemption date.</p> <p>The determination of the recovery rate on insolvency relating to the Reference Entity will be carried out by the Preference Share Calculation Agent.</p> <p>The determination of the redemption amount of the Notes will be carried out by the Calculation Agent, being Investec Bank plc.</p>

SECTION D – RISKS

D.2	Risks specific to the issuer:	<p>The following are the key risks applicable to the Issuer:</p> <p>The Issuer's businesses, earnings and financial condition may be affected by the instability in the global financial markets and economic crisis in the eurozone: The performance of the Issuer may be influenced by the economic conditions of the countries in which it operates, particularly the UK and Australia. The outlook for the global economy is uncertain, in particular in European markets due to sovereign</p>
-----	--------------------------------------	--

debt and speculation around the future of the euro. These market conditions have exerted downward pressure on asset prices and on availability and cost of credit for financial institutions and will continue to impact the credit quality of the Issuer's customers and counterparties. The Issuer may experience increased funding costs and find continued participation in certain markets more challenging. The risk of one or more countries leaving the euro may also have an impact on the Issuer's UK market. Such conditions may cause the Issuer to incur losses, experience reductions in business activity, find continued participation in certain markets more challenging, and experience increased funding costs and funding pressures, lower share prices, decreased asset values, additional write-downs and impairment charges and lower profitability.

The precise nature of all the risks and uncertainties the Issuer faces as a result of current economic conditions cannot be predicted and many of these risks are outside the control of the Issuer and materialisation of such risks may adversely affect the Issuer's financial condition and results of operations.

The Issuer's business performance could be affected if its capital resources and liquidity are not managed effectively: The Issuer's capital and liquidity is critical to its ability to operate its businesses, to grow organically and to take advantage of strategic opportunities.

The Issuer is required by regulators in the UK, Australia and other jurisdictions to maintain adequate capital and liquidity. Proposals relating to Basel III, the Capital Requirements Directive IV and those of the UK Independent Commission on Banking are likely to impact the management methods of the Issuer in relation to liquidity and capital resources and may also increase the costs of doing business. Any onerous regulatory requirements introduced by regulators could result in inefficiencies in the Issuer's balance sheet structure which may adversely impact the Issuer's profitability and results. Any failure to maintain any increased regulatory capital requirements or to comply with any other requirements introduced by regulators could result in intervention by regulators or the imposition of sanctions, which may have a material adverse effect on the Issuer's profitability and results.

The maintenance of adequate capital and liquidity is also necessary for the Issuer's financial flexibility in the face of any turbulence and uncertainty in the global economy. Extreme and unanticipated market circumstances, similar to those experienced in the recent global financial crisis and situations arising from a further deterioration in the Eurozone, may cause exceptional changes in the Issuer's markets, products and other businesses. Any exceptional changes, that limit the Issuer's ability effectively to manage its capital resources could have a material adverse impact on the Issuer's profitability and results. If such exceptional changes persist, the Issuer may not have sufficient financing available to it on a timely basis or on terms that are favourable to it to develop or enhance its businesses or services, take advantage of business opportunities or respond to competitive pressures.

The Issuer has significant exposure to third party credit risk: The Issuer is exposed to the risk that if third parties which owe the Issuer money, securities or other assets become unable to perform their obligations, the Issuer's funding will be affected. The resulting risk to Investors is that Investors may suffer a loss on their investment if the Issuer is unable to perform its payment obligations under any Notes it issues.

D.6	Risks specific to the securities:	<p>Capital at Risk: The Notes are not capital protected. Accordingly, there is no guarantee that the return on a Note will be greater than or equal to the amount invested in the Notes initially or that an investor's initial investment will be returned. Investors may lose some or all of their initial investment.</p> <p>Unlike an investor investing in a savings account or similar investment, where an investor may typically expect to receive a low return but suffer little or no loss of their initial investment, an investor investing in the Notes may expect to potentially receive a higher return but may also expect to potentially suffer a total or partial loss of their initial investment.</p> <p>Return linked to performance of the relevant Preference Share: The return on the Notes is calculated by reference to the percentage change in value of one or more preference shares, the redemption price on such preference shares being based on the performance of an underlying asset (being an index, share, basket of shares or basket of indices (the "Underlying"). Poor performance of the relevant Underlying could result in investors, at best, forgoing returns that could have been made had they invested in a different product or, at worst, losing some or all of their initial investment.</p> <p><i>In this section, for ease of explanation, the return on the Notes is summarised by reference to the performance of the Underlying rather than the applicable Preference Share.</i></p> <p>Loss of investment: Other than where the Final Terms specify that Barrier is applicable and the level of the index has not breached a certain specified level at a specified time or during a specified period (the "Barrier"), if at maturity the level of the index is less than a certain other specified level (the "Return Threshold"), the return on the Notes will be:</p> <p>less than the initial investment and investors will suffer a reduction of their initial investment in proportion (or a proportion multiplied by a gearing percentage) with the decline of the index level during a specified period or on a specified date. Accordingly investors will be fully exposed to the downside of the relevant index and, as a result, may lose all of their initial investment.</p> <p>Leverage factor (Gearing): The return on the Notes may be subject to a leverage factor of less than 100% and accordingly investors may not be exposed to the full upside of the relevant Underlying. Conversely, if the Notes are subject to a leverage factor of more than 100%, a small downward movement in the final level or price of the relevant Underlying could result in investors suffering significant losses.</p> <p>Capped return: The return on the Notes may be capped, thereby limiting the exposure to the upside performance of the relevant Underlying, which could result in the investors forgoing returns that could have been made had they invested in a product without a similar cap.</p> <p>Key risks specific to secured Notes</p> <p>Security may not be sufficient to meet all payments: Any net proceeds realised upon enforcement of any security granted by the Issuer over a pool of collateral ("Collateral Pool") will be applied in or towards satisfaction of the claims of, among others, the security trustee and any appointee and/or receiver appointed by the trustee in respect of the Notes before the claims of the holders of the relevant secured Notes. Since the net enforcement proceeds may not be sufficient to meet all payments in respect of the secured Notes, investors may suffer a loss on their</p>
-----	-----------------------------------	---

investment.

Collateral Pool may secure more than one series of secured Notes:

A Collateral Pool may secure the Issuer's obligations with respect to more than one series of Secured Notes and an event of default under the Notes with respect to any one series of Secured Notes secured by such Collateral Pool may trigger the early redemption of all other series that are secured by the same Collateral Pool in order for the security over the entire Collateral Pool to be enforced. Such cross-default may, among other things, result in losses being incurred by holders of the Secured Notes which would not otherwise have arisen.

Substitution of Posted Collateral: Collateral posted as security for the Issuer's obligations under the Notes may, at the Issuer's request, be substituted for other items of new collateral, provided that on the date of transfer the bid price of the new collateral is equal to or exceeds the bid price of the original collateral. Any such substitution request is subject to (a) verification by the entity appointed as the verification agent that the new item of collateral is eligible collateral; and (b) approval by the Trustee.

However, neither the verification agent nor the Trustee is obliged to confirm that the bid price of the new item of collateral is equal to or exceeds the bid price of the original item of posted collateral. Following any such substitution, the market value of the new item of collateral may fall below the value of the original item of posted collateral, and the net proceeds realised upon enforcement of the relevant Collateral Pool may therefore be less than if no such substitution had been made.

Key risks related to Credit Linked Notes

Credit Linkage: The Notes (or a portion thereof) are linked to a Preference Share which is linked to the credit of The Goldman Sachs Group, Inc. (the "**Reference Entity**") and are not capital protected ("**Credit Linked Notes**"). If a Reference Entity becomes subject to a "**Credit Event**" (broadly speaking if it becomes insolvent, defaults on its payment obligations or is the subject of governmental intervention (where relevant) or a restructuring of its debt obligations), then the redemption price which would otherwise be payable in respect of the Relevant Portion will be reduced in accordance with the Recovery Rate (as defined below). In addition to being exposed to the risk of insolvency of the Issuer, investors in Credit Linked Notes will also be exposed to the risk of a Credit Event of the specified Reference Entity or Reference Entities. There is a risk that an investor in a Note that is Credit Linked may receive considerably less than the amount paid by such investor, regardless of any positive performance in the Underlying. If all of the Reference Entities become subject to a Credit Event, an investor's return on the Notes may be zero. **As in the case of other Notes, Credit Linked Notes are not capital protected and investors may lose all or a substantial portion of their initial investment.**

Recovery Rate in Credit Linked Notes – General Recovery Rate: The redemption price payable on the Relevant Portion of the Notes following the occurrence of a Credit Event in respect of a Reference Entity will be determined by reference to the recovery rate for such Reference Entity, determined by reference to an auction coordinated by ISDA in respect of certain obligations of the Reference Entity or, in certain circumstances, including if such an auction is not held, a market price as determined by the Preference Share Calculation Agent (the "**Recovery Rate**"). There is a risk that the return payable to an investor in a Credit Linked Note may be different from the return that investors would have received had they

	<p>been holding a particular debt instrument issued by the Reference Entity.</p> <p>Postponement in payment of Final Redemption Amount – Credit Linked Notes: Each Note will be settled on its scheduled maturity date except that, if the Recovery Rate cannot be determined by the Preference Share Calculation Agent by the scheduled maturity date, payment of the Final Redemption Amount in respect of the Relevant Portion of such Note may be delayed and may fall after the Note's scheduled maturity date. Payment of the Final Redemption Amount may be delayed by up to 60 calendar days plus eight business days.</p>

SECTION E – OFFER		
E.2b	Reasons for the Offer and Use of Proceeds:	Not applicable. The use of proceeds is to make a profit and/or hedge risks.
E.3	Terms and Conditions of the Offer:	Not Applicable. The Notes will not be publicly offered.
E.4	Interests Material to the Issue:	The Issuer may be the Calculation Agent responsible for making determinations and calculations in connection with the Notes and may also be the Preference Share Calculation Agent and the valuation agent in connection with the reference asset(s). Such determinations and calculations will determine the amounts that are required to be paid by the Issuer to holders of the Notes. Accordingly, when the Issuer acts as Calculation Agent, Preference Share Calculation Agent or Valuation Agent its duties as agent (in the interests of holders of the Notes) may conflict with its interests as Issuer of the Notes.
E.7	Estimated Expenses:	Not applicable. Expenses in respect of the offer or listing of the Notes are not charged by the Issuer or Offeror or Dealer to the investor.
